

João Victor Vasconcelos Nogueira

Software Engineer — Mobile, Web and Backend
React Native • Flutter • React • Node.js

Aracaju, Brazil • contact@jvnogueira.com • jvnogueira.com • linkedin.com/in/joaovvn • github.com/joaovvn

Summary

Software Engineer with 4+ years of experience building scalable products across mobile, web, and backend systems. Strong background in API design, system architecture, and CI/CD pipelines. Experience delivering production applications end-to-end, improving operational efficiency and reducing manual processes. Comfortable working across the full development lifecycle.

Technical Skills

Frontend: React

Mobile: React Native, Flutter

Backend: Node.js, REST APIs, GraphQL

Architecture: Clean Architecture, MVVM, SOLID, TDD

State Management: Riverpod, Provider, BLoC, GetX

CI/CD: GitHub Actions

Tools: Docker, Git, Xcode, Android Studio

Professional Experience

Software Engineer — Pasley Hill LLC (via Niuro)

Oct 2025 – Present

- Built and maintained a production application, improving a fully manual vehicle inspection workflow.
- Reduced inspection time from 60+ minutes to 15 minutes through process automation.
- Developed backend services and integrations to support data processing and validation.

Software Engineer — Acceta Especialistas

Mar 2025 – Oct 2025

- Developed and maintained a web platform supporting tax analysis workflows.
- Led a React-based rewrite, improving performance, maintainability, and release speed.
- Built a client self-service flow, reducing evaluation time by **75%**.

Software Engineer — Allomatize Sistemas

May 2022 – May 2024

- Led development of multiple production applications across mobile and backend systems.
- Designed and implemented scalable APIs handling thousands of daily requests.
- Automated logistics workflows, reducing operational processing time by over **50%**.
- Improved development workflows through CI/CD automation and system design improvements.

Project

FoodMatch — Cross-platform Application

- Built application with real-time features, authentication, and API integrations.
- Implemented frontend and backend logic using modern development practices.

Education

Bachelor of Computer Science — Universidade Tiradentes

2020 – 2024

Languages

Portuguese (Native) English (Fluent)
